DESCRIPTORS	Guides; *High Schools; Public Schools; *School Districts; School Systems; *Spanish Speaking; *Student Enrollment
IDENTIFIERS	*United States

ABSTRACT

The guide lists public school districts and high schools in the U.S. that possess a Hispanic student population in excess of 15% of the total student body and/or a significantly large absolute number of Hispanic students. School systems are grouped by state, school district, county, and recruitment code. Recruitment codes for school districts are: (1) 100-500 students, (2) 500-1,000 students, (3) 1,000-2,000 students, (4) 2,000-9,000 students, and (5) 9,000 and over. Codes for individual high schools are: (A) 1,000 and over, (B) 500-1,000 students, (C) 300-500 students, (D) 200-300 students, and (E) 100-200 students. The information was taken from the "Directory of Public Elementary and Secondary Schools in Selected School Districts" published by the U.S. Department of Health, Education and Welfare for the fall of 1972. Since smaller school districts were selected for inclusion in the original survey in a statistically random manner based on district enrollment size, they are not included in this guide. (NQ)

A GUIDE TO HIGH SCHOOL RECRUITMENT:
School Districts with Significant
Hispanic Student Enrollment.

Secondary school systems offer a splendid recruitment opportunity for various job categories that the Federal government has to offer. In the past, Federal agencies have not availed themselves of this source as fully as possible, particularly with reference to Hispanic candidates. On the one hand, many students who choose not to continue on to college may be available for clerical positions and many of the support activities found in Federal agencies. On the other hand, recruiters may also be able to counsel high school students about career-oriented college programs, the availability of cooperative programs as well as summer and part-time employment.

The attached listing identifies public school districts and high schools in the United States that possess a Hispanic student population in excess of fifteen percent of the total student body and/or a significantly large absolute number of Hispanic students. School systems are grouped by state, school district, county and recruitment code.

Recruitment Codes for school districts

Code:

1=100-500 students
2=500-1,000 students
3=1,000-2,000 students
4=2,000-9,000 students
5=9,000+ students

Individual high schools are coded as follows:

Code:

A=1,000+ students
B=500-1,000 students
C=300-500 students
D=200-300 students
E=100-200 students

All of this information was taken from the Directory of Public Elementary and Secondary Schools in Selected School Districts published by the U.S. Department of Health, Education & Welfare for the fall of 1972.

This directory contains reported information, as of the beginning of the 1972-73 school year, on the racial/ethnic composition of pupils and full-time classroom teachers (assigned to one school) in approximately 8,000 school districts in the continental United States including Alaska and the District of Columbia. This information was reported to the Office for Civil Rights by school district superintendents and/or State education agencies. All school districts with 3,000 or more pupils in enrollment (1971-72) were surveyed. Smaller school districts were selected for inclusion in the survey in a statistically random manner based on district enrollment size in the preceding school year as determined by the USOE National Center for Educational Statistics. In addition, all districts eliminating racially or ethnically dual school systems under terms of voluntary plan agreements with the Department of Health, Education, and Welfare or under Federal court order were surveyed regardless of school district enrollment size.
